

TECHNICAL SUPPORT

Contractor support is crucial! One more way Navien leads the tankless water-heating industry is through our technical support staff. Even with the best equipment, sometimes things may not go as planned. That is why Navien has staffed two world-class support centers with live technicians to make sure you get the help you need, when you need it.

"I appreciate having such a great resource available through Navien tech services. I always get the help I need. Having such stellar tech support is one of the reasons I choose Navien."
