

Introducing the NEW N Series

FAST SET UP AND VERIFIED AIRFLOWS—**VIRTUO™ AIR TECHNOLOGY**

- Set the CFM and the unit auto-balances and self-adjusts—algorithm tested
- Better indoor air quality: constant CFM monitoring ensures constant results—digital readout
- Fast verifications: no gauges, no dampers—saves time (up to 20 minutes per install)

BEST MOTOR TECHNOLOGY—PMSM MOTORS

- PMSM: Permanent Magnet Synchronous Motor
- 37% more efficient than standard ECM motors—delivers the best CFM per watt performance
- Most compact and durable—used in electric cars

ULTRA COMPACT UNIVERSAL PLATFORM—SMALL BUT MIGHTY

- Top and side port orientations—works in the tightest mechanical rooms
- Up to 160 CFM—covers most applications
- Easy to install, lightweight unit

UPGRADED CONTROLS AND FILTRATION

- Wireless bathroom timers
- New Advanced Touchscreen Control option—enhanced user experience
- Standard MERV 8 filtration with optional MERV 13

Introducing the NEW N Series
